

During its 35 year history, COMPASS has impacted the lives of over 20,000 students, parents and families.

We are undertaking a fundraising campaign in honor of our 35 years providing services to the most vulnerable youth and families in Greater Boston, and in response to an unprecedented decrease in public revenue that has traditionally supported our core service programs.

“Besides academics, I believe the mission here is just to teach each individual that it is okay to be an individual. That life is more than the street. I believe that most people here are coming from the street... homelessness, poverty, drug abuse, sexual abuse; coming from nothing. Coming from a place where no one really cares, to a place where people are going to care for them the next eight hours.”
- from an interview with a former COMPASS student

We remain strong in our commitment and determination to provide the highest quality services possible to people whose lives have been ravaged by societal changes, personal crises, and the steady erosion of their safety nets of support.

COMPASS is their best, and for many, their only hope.

Please help us to continue to make a difference in the lives of COMPASS kids and families, who look to COMPASS to be there for them each day, in every economic climate.

Donations payable to COMPASS/RRFK enable us to receive an additional 15% match from the Rodman Ride for Kids! COMPASS is a 501c3 charitable organization so all contributions are fully tax deductible.

Mail to: COMPASS, 290-294 Bowdoin St. Dorchester, MA 02122. **Many thanks for your help!**
